Portfolio: <https://laxmi-dornal-portfolio.netlify.app>

Summary

Computer Science Engineering student with hands-on experience in Machine Learning, Python, and Web Development. Skilled in building CNN-based medical image classification systems, data analytics dashboards, and full-stack web applications. Proficient in TensorFlow, Django, Power BI, SQL, and REST APIs. Seeking an entry-level role as a Software Developer.

Technologies

Programming: Python, C, C++

Machine Learning: TensorFlow, Scikit-learn, OpenCV, CNN, NumPy, Pandas

Web Development: HTML, CSS, JavaScript, React, PHP, Django

Databases: MySQL, PostgreSQL

Data Analytics: Power BI, DAX, Excel, SQL

Tools: Git, GitHub

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Vidya Vikas Pratishthan Institute of Engineering and Technology, Soregaon

Dr. Babasaheb Ambedkar Technological University (DBATU), Lonere

Year of Completion: 2026 | **CGPA:** 8.04

Diploma in Computer Engineering

Shri Siddheshwar Women's Polytechnic (SSWP), Solapur

Maharashtra State Board of Technical Education (MSBTE)

Year of Completion: 2023 | **Percentage:** 82.23%

Secondary School Certificate (SSC)

Ahilyabai Prashala, Solapur

Maharashtra State Board of Secondary & Higher Secondary Education

Year of Completion: 2020 | **Percentage:** 88.20%

Internships

Web Development Intern — Vertex Technosys, Solapur

Jul 2022 – Aug 2022

- Developed responsive interfaces using HTML, CSS, and JavaScript.
- Built a 5+ page furniture e-commerce website using PHP and MySQL.

Data Analytics Intern — Codec Technologies Pvt. Ltd.

Nov 2025 – Dec 2025

- Cleaned and analyzed 5,000+ records using Excel, SQL, and Power BI.
- Built dashboards that reduced manual reporting time by 40%.

Python Development Intern — QSkill

Jan 2026 – Feb 2026

- Solved 30+ Python programming problems.

Projects

AI Data Analyst Tool

- Created an AI-powered web application that analyzes CSV and Excel datasets and generates interactive dashboards with meaningful insights and visual reports..
- Automated KPI calculations, dataset classification, and data visualization through bar charts, pie charts, line charts, and scatter plots, reducing manual data analysis **effort by 70%**.
- Enabled PDF report generation, email sharing, and real-time dashboard analytics, reducing reporting time and improving decision-making efficiency for users.

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Python, Django, SQLite, Pandas, Plotly, ReportLab

Hire-Sense AI

- AI-powered recruitment platform for resume screening, candidate ranking, and skill-based evaluation based on job descriptions, experience levels, and required qualifications.
- Resume parsing, skill extraction, and candidate matching using NLP techniques, reducing manual resume evaluation **effort by 80%** and improving shortlisting accuracy.
- Real-time candidate insights, ranking dashboards, recruitment analytics, and performance reports, improving hiring efficiency, reducing screening time, and supporting faster recruitment decisions.

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Python, Django, SQLite, Machine Learning, NLP, Pandas

SmartCart – Online Shopping System

- Designed Full-featured online shopping platform with product catalog, category-wise browsing, search functionality, and responsive user interface for seamless shopping experiences.
- User authentication, shopping cart management, order processing, and secure checkout workflow, reducing manual order handling and improving transaction efficiency.
- Real-time inventory tracking, order history, and admin dashboard for product and customer management, improving operational efficiency and enhancing user satisfaction.

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Python, Django, SQLite/MySQL

Hospital Analytics Dashboard using Power BI

- Built a dashboard to analyze hospital operations, **patient data and financial performance**.
- Integrated multi-source healthcare data to reduce **manual reporting and improve decision**.
- Identified trends in patient admissions, resource usage and treatment outcome using **Power BI analytics**.

Tech Stack: SQL, DAX, Power Query, Data Cleaning, Data Visualization

Certifications

Data Analysis Certificate

- Python Programming Certificate
- SQL Certificate
- Deloitte virtual Certificate
- PowerBI Certificate
